Welcome!

**D-8 International
University, a
networked university
with brand new
opportunities**

This is D-8 International University

Overview and Mission

In 1997, eight developing Islamic countries, including Bangladesh, Egypt, Indonesia, Iran, Malaysia, Nigeria, Pakistan, and Turkey established the D-8 Organization for Economic Cooperation. This organization, also known as D-8 for short, was established with the goal of promoting the status of member states in world economy, improving commercial relations among the countries, promoting their role in international decision making, and enhancing living standards.

D-8 international University (D8IU) was established to generate, promote, and develop cooperation among the member states through interaction among universities and students, and the goal was for the member states to achieve a reasonable international share from these interactions. Recognizing the diverse needs and challenges faced by member states, the university also

seeks to provide necessary support to ensure educational equity and opportunities for all students. By facilitating an inclusive and equitable learning environment, D-8 International University strives to establish educational justice as a fundamental principle for all member states, enabling them to attain their rightful international share from these interactions.

This university is in coordination with the aims and objectives of D-8 Organization, and is recognized as an independent legal entity categorized as an Islamic international university.

D8IU currently offers Master and PhD degree programs in a variety of all study fields. D8IU offers the most affordable tuition fees nationwide with attractive tuition remission packages for international students

Unique Opportunities: D8IU Universities Network

With the recent signing of a Memorandum of Understanding between D8IU and prominent universities in Malaysia, Indonesia, and Iran, an exciting opportunity has emerged for prospective students. Under this collaboration, students now have the unique privilege of pursuing their studies at one of the designated universities in Malaysia, Indonesia, and Iran. The program allows students to undergo a comprehensive educational experience, with a portion of their studies taking place at both D8IU and the chosen university.

Upon successful completion of the program, students will be conferred with dual degrees—one from the university of their choice in Malaysia, Indonesia, or Iran, and another from D8IU as an internationally recognized English-language-based university. This innovative approach not only offers students a diverse and enriching academic journey but also provides them

with a valuable international perspective, equipping them for success in a globalized world.

Iranian Universities:

1. Amirkabir University of Technology
2. Allameh Tabataba'i University
3. Bu-Ali Sina University
4. Imam Khomeini International University
5. Alzahra University

Malaysian Universities:

6. Universiti Malaya
7. Sains University of Malaysia
8. Universiti Putra Malaysia
9. Universiti Kebangsaan Malaysia
10. Universiti Teknologi MARA
11. Universiti of Malaysia Pahang Al-Sultan Abdullah

Indonesian Universities:

12. Syiah Kuala University
13. Brawijaya University

With this unique opportunity provided by D8IU, students of D8IU can study in any of the fields they desire in these universities.

Objectives and Vision

Some of the announced objectives of D8IU include the following:

1. Admitting students, especially from D-8 member states and non-member states, establishment of courses in higher education, issuance and grant of academic degrees and certificates, holding short-term courses leading to obtaining a degree, issuing and awarding other academic degrees.
2. Conducting research projects, holding conferences, seminars, workshops, granting awards, and holding other international scientific and academic events.
3. International cooperation, publishing scientific journals and newsletters, and organizing cultural programs to strengthen cultural exchanges among D-8 nations.
4. Offering scholarships, exchanging students, professors, and offering sabbaticals.
5. Offering consultations to countries, organizations, other applicants in the fields of education, science, technology and innovation.
6. Conducting research programs to determine the priorities and educational, scientific, and technological needs of D-8 countries.
7. Establishing specialized centers and branches in all the member states, facilitating and sharing of knowledge, along with supporting the industry-university link and enhancing the standards of education among the D-8 countries.
8. Training human resources to meet the needs of D-8 countries. According to the rules of procedure of the first Focal Points Meeting of D-8 member states, currently the University will only admit students in postgraduate level and the admission is CV-based and the nominees will be admitted from among students outside Iran.

Message of the Chancellor

Dear Students,
Dear Parents,

I am delighted to welcome you to D-8 International University, which is affiliated to D-8 Organization for Economic Cooperation. D-8 International University is an academically competitive research university that offers a friendly campus atmosphere, where graduate students grasp the opportunity to engage in research with faculty members, who are nationally and internationally recognized scholars. Congratulations for choosing to study in this very special learning environment.

D-8 International University aims to develop international scientific cooperation among D-8 countries' prominent universities and other International universities and create a leading edge in science

and technology. We work as a network university and synergize existing facilities and well-known scholars in different universities to fulfill this aim. Students will acquire rich knowledge and excellent skills by participating in this familiar environment.

We are excited that you have chosen D-8 International University to further your educational and professional goals, and hope you enjoy staying in the campus, the campus which is located in the beautiful and historic city of Hamadan in western Iran.

Abbas Afkhami (Professor)
Chancellor

Language of the University

Are you tired of struggling with multiple languages in your academic pursuits? Look no further than D-8 International University, where English is the only language you need to know!

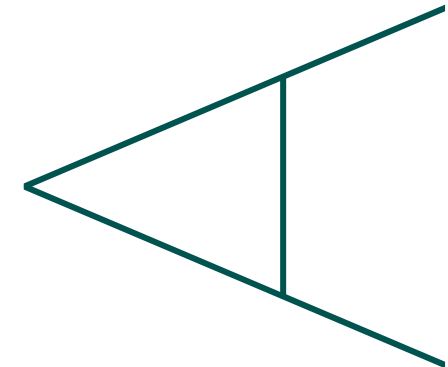

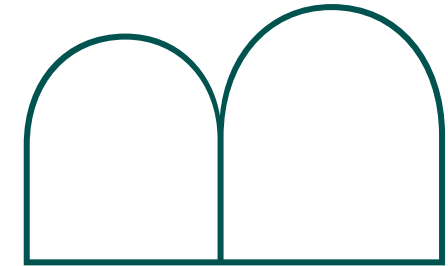

At D-8 International University, we believe that learning should be accessible and straightforward that is why we have established English as the sole language of communication and instruction. With our English-language policy, you can focus on your academic pursuits without worrying about learning other languages.

All procedures and processes within the institution, including applications, official documents, forms, and communication between students, faculty, and administration, are conducted in English. This ensures that everyone can communicate effectively and efficiently, regardless of their native language.

Moreover, our English-language policy prepares you for success in today's globalized world. With English as the primary language of business, science, and diplomacy, you will have the skills you need to navigate a complex, interconnected world.

Join D-8 International University today and experience the benefits of our English-language policy where learning is accessible, straightforward, and globally relevant!

Additionally we do offer opportunity for our students for learning Persian and other languages if they desire!

- **Note 4:** All submitted documents must be valid and of high resolution, otherwise they will not be accepted.

Study Fields

At D-8 International University, we strive to provide a stimulating and supportive environment for our students and researchers. Our university is comprised of experts in their respective fields who are dedicated to advancing knowledge through cutting-edge research and innovative teaching methods.

We offer a wide range of master's and doctoral degree programs across various disciplines, including business, engineering,

social sciences, and many more. Our programs are designed to equip students with the skills and knowledge needed to succeed in their chosen fields and to make meaningful contributions to society. Our students come from all over the world, creating a rich and vibrant community that reflects the global nature of our programs.

If you are looking for a world-class education and the opportunity to pursue your passion for research,

D-8 International University is the perfect place for you. Come and join us in our mission to create knowledge and make a positive impact on the world.

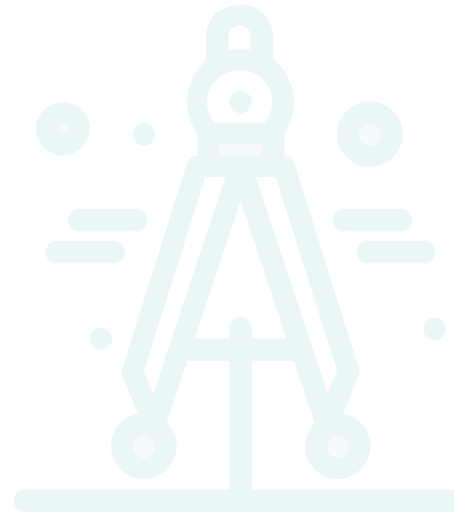

You can find information about the fields of studies available in the tables below. If you have any questions feel free to contact us. Unlock your potential and join our community of passionate scholars at the D-8 International University, where you can discover and pursue your academic dreams!

Fields of Technical and Engineering Faculty

Applied Design
Motor Behaviour
Energy Conversion
Computer Engineering
Civil Engineering
Software
Geotechnic
Information Technology Engineering
Hydraulic Structures
Biosystem Engineering
Construction Management
Materials Engineering
Surveying Engineering
Electrical Engineering
Industrial Engineering
Rural Development
Design and Construction
Mechanical Engineering

Fields of the Basic Science Faculty

Applied Chemistry

Food Technology

Physical Chemistry

Health and Food Quality Control

Organic Chemistry

Bacteriology

Inorganic Chemistry

Parasitology

Analytical Chemistry

Physics

Physiology

Applied Mathematics

Pure Mathematics

Faculty of Humanities
